WELCOME TO SWISSANAESTHESIA 2026

Dear Colleagues, Dear Friends,

It is my great pleasure to welcome you to SwissAnaesthesia 2026 in Interlaken, held under the theme **«Perioperative Medicine 2026 – Shaping our Future.»**

Perioperative medicine is evolving rapidly. New scientific insights, innovative technologies, changing healthcare systems and, above all, our growing understanding of the patient as a whole are shaping the way we practise anaesthesia and perioperative care. Our congress offers an opportunity to reflect on these developments, exchange experiences and discuss how we can actively shape the future of our specialty.

The programme brings together a broad range of topics, perspectives and formats, with inspiring lectures, interactive sessions, workshops and opportunities for scientific exchange. We are particularly pleased to welcome an outstanding faculty from Switzerland and abroad. At the same time, SwissAnaesthesia remains a place for personal encounters: for discussions between colleagues, for networking across generations and disciplines, and for sharing ideas beyond the formal programme.

I would like to express my sincere gratitude to all members of the Congress Committee. Their commitment, expertise and enthusiasm have been essential in developing a programme that reflects both current challenges and future opportunities in perioperative medicine.

My special thanks also go to BBS Congress GmbH, our congress organisation agency, for their professional support and for all the work behind the scenes that makes this meeting possible. I am equally grateful to our exhibitors and industry partners for their support and for contributing to the exchange between clinical practice, science and innovation.

Finally, I would like to thank you, our participants, for being part of SwissAnaesthesia 2026. A congress comes alive through the people who attend it, the questions they ask, the ideas they share and the conversations they start.

I hope you will enjoy an inspiring and stimulating congress in the beautiful setting of Interlaken. Let us use these days to learn from one another, challenge established thinking and, together, shape the future of perioperative medicine.

I look forward to welcoming you personally.

Prof. Martin Schläpfer
Congress President, SwissAnaesthesia 2026

P 17 SonoClot FACTx during extracorporeal bypass in elective heart surgery (SonoClot correlation to Fibrinogen, ACT and antiXa activity)
di Primio T, Gauger M, Prosenz K, Dzemali O, Mauermann E; Zürich, Zug

P 18 Preoperative myocardial abnormalities quantified by cardiovascular magnetic resonance and the risk of intraoperative hypotension
Scheiwiler L, Chiarello N, Hotz S, Harms R, Oertle L, Roten A, Pestrin L, Guensch DP, Fischer K; Bern

P 19 Effect of magnesium sulphate on vecuronium-induced neuromuscular blockade reversal using neostigmine: a randomised, single-blind study
Kumar S, Bhuyan D, Bansal V; Deoghar (IND)

P 20 miR-22-3p regulates the MHC-II pathway via CIITA and mediates monocytic HLA-DR downregulation in a model of sepsis-induced immunosuppression
Moolan-Vadackumchery R, Zhang L, Kocinec M, Stüber F; Bern

12:00 – 13:00 Kongresssaal

Posterwalk III

Tourguides: Martin Schläpfer, Dominik Günsch

P 21 Implementation of an EEG-guided fast-recovery anaesthesia pathway during high-throughput robotic gynaecological surgery: a consecutive case series
Burren D, Erdoes G, Eggemann C, Basciani R; Biel/Bienne

P 22 Effects of nociceptin on triggering receptors expressed on myeloid cells (TREM1 and TREM2) in human monocytes
Zhang L, Stamer UM, Moolan-Vadackumchery R, Kocinec M, Stüber F; Bern

P 23 A new approach to pain assessment: Are words better than numbers?
Feller ML, Hofer D, Harnik M, Stamer UM; Bern

P 24 Sedation success and procedural satisfaction with an optimized remimazolam protocol
Tschumi ED, Aebi J, Toengi N, Fischer K, Filipovic MG, Guensch DP; Bern

P 26 Prophylactic fixed-rate norepinephrine versus phenylephrine infusion for prevention of spinal anaesthesia-induced hypotension in non-obstetric lower abdominal surgery: a double-blind randomized controlled trial
SHARMA SK; Gorakhpur (IND)

P 27 Implementation of a comprehensive digital preoperative assessment pathway in a large non-university regional referral hospital in Switzerland
Graf T, Erdoes G, Seljmani A, Kontrauskaite R, Basciani R; Biel/Bienne

P 28 Implementation of a perioperative safety intervention: a mixed-methods multicentre study assessing implementation pace and its determinants
Weiss T, Cody R, Burri-Winkler K, Cocchi S, Passerini S, Rosenthal R, Ursprung G, Vetter Räss L, Winiker-Seeberger M, Clack L, Steiner LA, van Vegten A, Dell-Kuster S; Basel, Zürich, Lugano, Chur, Luzern, Lausanne

P 29 From educational theory to clinical reality: putting micro-learning to prevent perioperative hypothermia ineveryday clinical practice to the test
Thomasius MA, Gellisch M, Kaserer A, Tucci M, Breckwoldt J; Zürich

P 31 Superimposed high-frequency jet ventilation versus single jet ventilation during rigid bronchoscopy: A case report
Eichenberger AS, Südy R, Messe R, Geissmann P, Schiffer E, Albu G; Geneva

13:15 – 14:15
Theatersaal

Oral presentations I

Chairs: Alexandra Othenin-Girard, Nuno Gomes

OP 1 Current practice of neuromuscular block management in paediatric anaesthesia and intensive care: an international survey
Gander M, Bonatti G, Afshari A, Veyckemans F, Fuchs-Buder T, Riva T, Huber M, Disma N, Fuchs A; Bern, Genoa (I), Copenhagen (DK), Brussels (B), Nancy (F)

OP 2 Association of disturbed cerebral autoregulation during major noncardiac surgery with the biomarker of neurological injury neurofilament light
Tasman L, Vogt AP, Pietsch U, Filipovic M, Steiner LA, Wanner PM; Basel, Bern, St.Gallen

OP 3 Lower preoperative Thyroxine (T4) is associated with higher 30 day and 1 year mortality after elective adult cardiac surgery with cardiopulmonary bypass
Stieger A, Huber M, Andereggen L, Luedi MM, Filipovic M; St.Gallen, Bern

OP 4 Effect of inhaled glycopyrrolate in improving the fibreoptic intubating conditions under general anaesthesia: A randomized controlled trial
Kumar A, Pradhan M N, Kumar N, Kumar A; Patna (IND)

OP 5 Clonidine to prevent postictal delirium after electro convulsive therapy: a randomised, placebo-controlled, triple-blind, single-centre trial (ECaTa)
Beilstein CM, Meyer A, Lehmann LE, Huber M, Wuethrich PY; Bern

13:15 – 14:15
Kongresssaal

Oral Presentations II

Chairs: Martin Schläpfer, Christoph Czarnetzki

OP 6 Observed treatment effects in anaesthesia and pain trials: A Bayesian reanalysis of the Cochrane Database of Systematic Reviews
Huber M, Fuchs A; Bern

OP 7 Decisional regret at 6 and 12 months in patients and close relatives following major abdominal surgery for cancer: a prospective cohort study
Maillard J, Elia N, Ris F, Courvoisier D, Zekry D, Labidi Galy I, Toso C, Mönig S, Zaccaria I, Walder B; Geneva

OP 8 The PRECISION study: Impact of cerebral autoregulation on neurological outcomes in patients undergoing cardiac surgery – preliminary results from an international, multicentre, prospective cohort study
Gomes NV, Battegay S, Beqiri E, Young J, Gregor M, Erb JM, Siegemund M, Guensch D, Menon DK, Czosnyka M, Smielewski P, Klein AA, Dell-Kuster S, Steiner LA; Basel, Cambridge (UK), Monreal (CDN), Bern, Zurich

OP 9 Impact of multimodal versus opioid-based anaesthesia on short-term quality of recovery after major surgery: a single-centre randomised controlled trial (the MOPAC Trial)
Arigoni SM, Steinacher S, Huber M, Beilstein CM, Wüthrich PY, Engel D; Bern

OP 10 Current evidence of multimodal anaesthesia on postoperative outcomes: A Systematic Review and Meta-Analysis
Arigoni SM, Heitmann-Frei AB, von Gernler MS, Beilstein CM, Huber M, Wüthrich PY, Engel D; Bern
